+91–9361816203

Driven Web Designer with a strong foundation in HTML, CSS, and JavaScript and leveraging proficiency in Figma and Photoshop to create visually appealing and user–friendly interfaces. Demonstrated leadership qualities, punctuality, and creativity contribute to successful project execution. Quick learner with a passion for staying abreast of industry trends and emerging technologies. Excited to bring a dynamic skill set and commitment to excellence to a forward–thinking team.

## Skills

### Programming Languages

JAVA

### Front – End Technologies

HTML, CSS & JAVASCRIPT

### Design Tools

Figma & Adobe Photoshop

## Projects

### Jozy – Ecommerce Shopping Website

Designed & developed a Ecommerce website using HTML, CSS, and JavaScript.

### AyurZen – Nurturing Mental Health Through Ayurvedic Chatbot |

Collaborated with a team in my final year to develop an AI-powered chatbot that integrates Ayurvedic principles, addressing challenges in mental health treatment by focusing on alleviating depression symptoms, reducing attrition, and improving follow–up.

### Hostel Management System

Completed a mini–project focused on developing a Hostel Management System during college, aiming to streamline and enhance hostel operations.
